C-Bay auction site badge graphics to decorate
your own paranoid equipment auctions

Citizen! The Mongoose Publishing **PARANOIA** equipment book *STUFF* features over 125 all-new, never-before-published items and services. These items are presented as entries from the online auction site C-Bay. But Gamemaster, what if those 125-plus items (new! never published!) just don't sate your players' demands? What if you want to create your own C-Bay layouts?

We hear and obey. Visit the Mongoose Publishing website (www.mongoosepublishing.com), where you can download a FREE blank C-Bay page template. Then use these **decorations**, drawn from *STUFF*, to make the entries convincing, attractive and *in no way* likely to get your Troubleshooters in dutch with The Computer, Internal Security, Armed Forces, secret societies, rogue mutants and/or fans of Teela O'Malley.
