How to get a Print Friendly Version

The screen versions of our ebooks are not suitable for most home printers. We offer a printer friendly version that doesn't contain border graphics and other miscellaneous ink draining elements. However, even our printer friendly versions will give your printer a good work out.
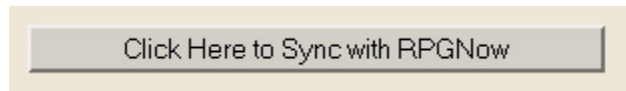

You can obtain a printer friendly version as well as other variant layouts from RPGObjects.com. In addition, you will gain access to special "upgrade" links to purchase printed versions at a reduced rate.

To obtain a printer friendly version:

1) Create an account at RPGObjects.com using the **SAME** email you use at RPGNow.com:

http://www.rpgobjects.com/index.php?page=register

2) Once you've created an account, login, and then click the **Sync with RPGNow** button on your "my account" page.

3) Download the ebook version you want.

If you have any problems, contact us at webmaster@rpgobjects.com and we'll help you out!

Enjoy!
